Proposed an exemption for taxpayers 65 years or older.

Barbara Fraser's Homestead Exemption would help Missourians on a fixed income. It means that if your property value goes up, you aren't responsible for paying those extra taxes if you are over 65, meet income qualifications and have owned your house for five years or more.

Plan gives seniors more peace of mind.

Living on a fixed income can mean living in fear of unexpected, new expenses. Barbara's Homestead Exemption Act is designed to make sure fixed income seniors don't have to worry about their property taxes suddenly going up.

Protecting our seniors from Eminent Domain.

Eminent domain abuse threatens the homes of our families, our friends and most importantly our seniors. Barbara Fraser will fight to protect our most cherished members of the community by ensuring our family's homes don't fall victim to eminent domain laws and big developers.
